DETAILED ACTION

Allowable Subject Matter

1. Claims 1-27 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The current Examiner agrees that the references applied in the rejections set forth in the Office action of February 26, 2008 do not disclose the claimed invention.

Bayer et al. US 6,031,606 ("Bayer") was not cited by the previous Examiner, although it is very relevant to Applicant's claim 1, which is the only independent claim. Bayer discloses all of the limitations of claim 1 except for the claimed decoding device. See Figure 4 and col. 02:44 – col. 03:07. In contrast to the invention of claim 1, the decoding device of Bayer determines a centroid for the sensor arrangement row lines from the accumulated currents for the rows and similarly a centroid for the sensor arrangement column lines from the accumulated currents for the columns. "As a result, the two-dimensional image coordinates of the target are determined on the detector (step 110)." See col. 02:59 – col. 03:07 and claim 1 in Bayer.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALEX NOGUEROLA whose telephone number is (571) 272-1343. The examiner can normally be reached on M-F 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, NAM NGUYEN can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
